

SPECIAL EMPHASIS PROGRAM MILLWORK SURVEY

The Cal/OSHA Special Emphasis Program wants to provide the best service possible to employers and employees in the millwork industry. In order to better assist the industry, this survey was developed with the hopes of gaining not only gaining valuable insight, but to invite interested members of the millwork industry to participate in the program as well, as industry advisors to Cal/OSHA. Please fill out this survey, and fax it to (562) 941-3133 or return it in the envelope provided. We appreciate your valuable input.

Name _____ Title _____

Company _____

Address _____

City _____ Zip Code _____

Phone number (____) _____

Number of employees _____

1. Please rank the work areas where work-related injuries have occurred most frequently (1 being the most frequent; 2 occasionally; 3 least frequent).
